## English

### Important

Read this Important Information leaflet carefully before you use the blender and save it for future reference.

### Danger

- Never immerse the motor unit in water or any other liquid, nor rinse it under the tap. Use only a moist cloth to clean the motor unit.

### Warning

- Check if the voltage indicated on the appliance corresponds to the local mains voltage before you connect the appliance.
- If the mains cord is damaged, you must have it replaced by Philips, a service centre authorised by Philips or similarly qualified persons in order to avoid a hazard.
- Do not use the appliance if the plug, the mains cord or other parts are damaged.
- Never use the blender jar or mill beaker to switch the appliance on and off.
- Never let the appliance run unattended.
- This appliance shall not be used by children. Keep the appliance and its cord out of reach of children.
- Appliances can be used by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and if they understand the hazards involved.
- Children shall not play with the appliance.
- Do not touch the blades, especially when the appliance is plugged in. The blades are very sharp.
- Be careful if hot liquid is poured into the food processor or blender as it can be ejected out of the appliance due to a sudden steaming.
- The appliance is intended to be used in household only.
- Do not touch the cutting edges of the blender blade unit when handling, emptying the container and during cleaning. They are very sharp and you could easily cut your fingers on them.
- Make sure the appliance is properly cleaned. Especially the surfaces in contact with food. Details of cleaning can be found in figure 4.
- Switch off the appliance and always disconnect from supply if it is left unattended and before assembling, disassembling, approaching parts that move in use or cleaning.
- Never use any accessories or parts from other manufacturers or that Philips does not specifically recommend. If you use such accessories or parts, your guarantee becomes invalid.
- Do not exceed the maximum indication on the blender jar and the mill.
- Do not exceed the maximum quantities and processing times indicated in the relevant table.
- The appliance can only be switched on if the blender jar or the mill is assembled on the motor unit correctly.

### Blender

#### Warning

- Never reach into the blender jar with your fingers or an object while the appliance is running.
- Make sure the blade unit is securely fastened to the blender jar before you assemble the blender jar onto the motor unit.
- Do not touch the cutting edges of the blender blade unit when you handle or clean it. They are very sharp and you could easily cut your fingers on them.
- If the blade unit gets stuck, unplug the appliance before you remove the ingredients that block the blades.

#### Caution

- In order to avoid a hazard due to inadvertent resetting of the thermal cut-out, this appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by the utility.
- Do not misuse the appliance to avoid potential injury.
- Never fill the blender jar with ingredients hotter than 80 °C.
- To prevent spillage, do not put more than 1.5 litres of liquid in the blender jar, especially when you process at a high speed. Do not put more than 1.25 litre in the blender jar when you process hot liquids or ingredients that tend to foam.
- If food sticks to the wall of the blender jar, switch off the appliance and unplug it. Then use a spatula to remove the food from the wall.
- Always make sure the lid is properly closed/assembled on the jar and the measuring cup is inserted properly in the lid before you switch on the appliance.
- Do not let appliance run for more than 2 minutes at time.
- Always let the appliance cool down to room temperature after each batch you process.
- Noise level: Lc = 86dB(A)

#### Electromagnetic fields (EMF) ■

This appliance complies with the applicable standards and regulations regarding exposure to electromagnetic fields.

#### Recycling

This symbol means that this product shall not be disposed of with normal household waste (2012/19/EU). Follow your country's rules for the separate collection of electrical and electronic products. Correct disposal helps prevent negative consequences for the environment and human health.

## Built-in safety lock

This feature ensures that you can only switch on the appliance if the blender jar, the mill or the chopper bowl is assembled on the motor unit properly. If the blender jar, the mill or the chopper bowl is correctly assembled, the built-in safety lock will be unlocked.

## Overheat protection

The appliance is equipped with overheat protection. If the appliance overheats, it switches off automatically (which might occur during heavy processing jobs or if the appliance is not used according to the instructions in the user manual). If this happens, first switch off and unplug the appliance and let it cool down to room temperature. Then check if the quantity of ingredients you are processing does not exceed the quantity mentioned in the user manual or if something is blocking the blade unit. Then put the mains plug back into the power outlet and switch on the appliance again.

## Warranty and support

Versuni offers a two-year warranty after purchase on this product. This warranty is not valid if a defect is due to incorrect use or poor maintenance. Our warranty does not affect your rights under law as a consumer. For more information or for invoking the warranty, please visit our website [www.philips.com/support](http://www.philips.com/support).

## Recipe

To prepare this recipe, you will need the Mill (Mini-Chopper). It's important to note that the Mill (Mini-Chopper) is not included as a standard accessory with every model in this product range. However, it can be easily ordered as an additional accessory. For detailed instructions on how to order accessories, please refer to the dedicated chapter on 'Ordering Accessories' in this user manual.

- 200g Beef (2x2cm cube);  
Put the beef cube in the Mill (Mini-chopper) and use Max. speed for 10 seconds.
