

PHILIPS

Eco passport

Philips Performer Compact Vacuum cleaner with bag

Full performance, easy to use with AirflowMax technology. The new Philips Performer Compact vacuum cleaner delivers top cleaning performance with minimum effort. AirflowMax technology keeps the suction power stronger for longer. The TriActive nozzle removes dust efficiently on all floors.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the six Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

Energy

- Annual energy consumption: 27,5kWh
- Input power: 750 W*

Packaging

- Cardboard: minimal of 90% recycled content
- User manual: 100% recycled paper
