Introduction

Congratulations on your purchase and welcome to Philips! To fully benefit from the support that Philips offers, register your product at www.philips.com/welcome.

■ Important

Read this important information carefully before you use the appliance and save it for future reference.

- Avoid spillage on the connector
- Do not misuse this kettle for other than its intended use to avoid potential injury
- Do not use the appliance if the plug, the mains cord, the base or the kettle itself is damaged. If the mains cord is damaged, you must have it replaced by Philips, a service centre authorised by Philips or similarly qualified persons in order to avoid a hazard.
- This appliance can be used by children aged from 8 years and above and by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and if they understand the hazards involved. Cleaning and user maintenance shall not be made by children unless they are older than 8 and supervised. Keep the appliance and its cord out of reach of children aged less than 8 years.
- Children shall not play with the appliance.
- Keep the mains cord, the base and the kettle away from hot surfaces.
- Do not place the appliance on an enclosed surface (e.g. a serving tray), as this could cause water to accumulate under the
- appliance, resulting in a hazardous situation. - Unplug the appliance and let it cool down before you clean it. Do not immerse the kettle or base in water or any other liquid. Only clean the appliance with a moist cloth and a mild cleaning agent.
- The kettle shall not be used for cooking noodles because the oil can make the water level Indicator crack.

Caution

- Only connect the appliance to an earthed wall socket.
- Only use the kettle in combination with its original base.
- The kettle is only intended for heating up and boiling water.
- Never fill the kettle beyond the maximum level indication. If the kettle has been overfilled, boiling water may be ejected from the spout and cause scalding.
- Be careful: the outside of the kettle and the water in it become hot during and some time after use. Only lift the kettle by its handle. Also beware of the hot steam that comes out of the kettle.

- This appliance is intended to be used in household and similar applications such as farm houses, bed and breakfast type environments, staff kitchen areas in shops, in offices and in other working environments and by clients in hotels, motels and other residential type environments.

Boil-dry protection

This kettle is equipped with boil-dry protection: it switches off automatically if you accidentally switch it on with no or not enough water in it. Let the kettle cool down for 10 minutes and then lift the kettle off its base. Then the kettle is ready for use

Electromagnetic fields (EMF)

This Philips appliance complies with all standards regarding electromagnetic fields (EMF).

—Descaling the kettle (Fig. 3) **—**

Depending on the water hardness in your area. scale may build up inside the kettle over time and affect performance of the kettle. Regular descaling makes your kettle last longer. ensures proper function and saves energy.

When scale starts to build up inside the kettle. fill the kettle with water then add white vinegar (step 7). Wait for half an hour before rinsing the kettle (steps 8 - 10). Boil twice (steps 11-14) to remove all vinegar

Keep water warm (Fig. 4)

You can use the keep-warm function to keep water warm.

1 Press the keep warm button.

- The keep warm light goes on.
- The kettle keeps water warm.

2 Press the keep warm button again to deactivate the keepwarm function.

- The keep warm light goes out.

—Cleaning **—**

- Always unplug the base before you clean it - Never immerse the kettle or its base in

—Cleaning the kettle and the base (Fig. 6) **—**
