

Philips Air Humidifier

Philips air humidifier fights dry air with maximum efficiency and hygiene. It evenly distributes humidified air throughout the room and has 99% less bacterial spreading compared with ultra sonic humidifiers. No white dust and wetting floors.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

Energy

- Power: level : 15W
- Sound level: 26dB (A) in silent mode
- Humidification Rate: 200 ml/h
- Annual energy consumption: 68kWh/year*
