

# Philips Powerlife Plus Steam Iron

The Philips PowerLife Plus steam iron gives great results day after day and never lets you down, with its new SteamGlide soleplate, constant high steam output, easy to use calc clean for long lasting steam and extra stable heel rest. The ECO mode allows you to save energy by using a reduced amount of steam, still sufficient to iron all your garment. The product comes in packaging made with recycled materials.

## Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

## Energy

- Power: 2000-2400 Watt
- ECO Mode: Yes
- Auto-Shut Off: Yes<sup>[1]</sup>
- Off Mode: 0 Watt
