Espresso Perfetto by Philips Saeco

Certified by Centro Studi Assaggiatori - Italian Tasters

This machine has been certified with the in-cup sensory quality label Espresso Perfetto by Philips Saeco. That's because the result of its brewing process of espresso satisfies the strict sensory parameters set by Philips Saeco and certified by the most advanced Italian centre in the field of sensory analysis, Centro Studi Assaggiatori - Italian Tasters. Philips Saeco is the cutting-edge company in the sector of the fully automatic espresso machines for home to pay big attention to the effect its beverages have on the senses, providing you with an engaging, fulfilling experience of the best taste and aroma.

This special focus is particularly important as one's enjoyment of espresso involves several senses; we use sight to appraise the quality of the crema layer; scent to savour the aroma, touch to perceive its velvety effect on the palate and taste to appreciate the flavour.

Set your machine to perfect taste

Taste is something really personal and with our fully automatic machine you can always find your perfect combination. If you would like to try the Espresso Perfetto by Philips Saeco, follow these easy steps:
