

Philips Senseo® Switch Pod and filter coffee machine

Brew your favorite big pot of filter coffee to share, or with the push of a button, enjoy the various SENSEO blends just for you. With our simple and easy to use DualBrew technology, you can now brew jugs, cups, filter and pad coffee. .

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the six Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

 <h3>Energy</h3> <ul style="list-style-type: none"> • Max power consumption: 1450W • Annual energy consumption: 26kWh* • Low power energy consumption: <0.15W • Automatic shut off: direct after brew 	 <h3>Packaging</h3> <ul style="list-style-type: none"> • Minimal of 90% recycled cardboard paper • No use of polyvinylchloride (PVC), expanded polystyrene (EPS) in packaging
