Very poor

Maintenance

When display shows F0

• Press the two clips down 1 and pull the pre-filter towards you 2

• Clean the pre-filter

When display shows A3 **When display shows C7**

• Time to replace NanoProtect filter HEPA Series 3

• Time to replace NanoProtect filter Active Carbon

! Press for 3 seconds to reset after cleaning or replacing accessory

The filter may produce smell after being used for a while because of the absorption of indoor air. Remove the filter and place it where it has direct sunlight and ventilation for several hours. Re-install and try using it again. If the odor remains, please replace the filter.
